

Robot Trashcan (Played by Lauren)

When they told me there'd be a garbage robot on stage, I thought they were talking about Threepio.

Queen Amidala

Padme is a really fantastic queen. No, my mistake, she has a fantastic queen who does all her makeup.

I really loved you. I mean, I went over to the dark side to save your life. Granted, that's also what you told me the first time I went down on you.

C3PO

When I made you, if I had known how annoying you were gonna be I would've jumped in the lava myself.

You know why your mouth is shaped like a USB port, Threepio? Because you love for other robots to stick adapters in it

Nice half-tank top, by the way. I didn't know that they made droids to twink specifications.

I always wondered how you knew about the exhaust port vulnerability. But attacking vulnerable exhaust ports is kind of your bag isn't it?

Jar Jar Binks

It's really something to say that you are probably the most accomplished Sith Lord I have ever known. It's really something else to say that you were so bad at it that they wrote you out of the series completely.

A lot of people ask me, did I have a good friendship with you growing up. The truth is, since your original actor was Michael Jackson, we had a more litigious friendship than a good one.

Lando Calrissian

I have to applaud you for paving the way for Finn in The Force Awakens. First we had a black leader of Cloud City who turned his back on his friends, now we have a black stormtrooper who turns his back on his orders. You're a hero to us all.

Honestly, super sorry for the stormtroopers all shooting at you when you were at the helm of the Falcon. Several people reported a stolen ship and they just jumped to conclusions.

Look, you know I love you man, just don't wear a hoodie while walking through suburban Coruscant, alright?

Anakin:

Anakin, you know, no spoilers, but shit gets weird for you down the road. Being castrated is nothing like podracing. It is a lot like having to spend an afternoon Padme, though.

Your goal was to be a Jedi when you grew up. Good on you because you nailed it. And Padme. And all those younglings right in the fuckin' mouth with your lightsaber.

I have to thank you for being part of the reason I was retconned into womanhood. You were such a whiny little cunt they figured they'd just make it the truth.

Han Solo (Played by Grant)

I bet you thought you lucked out not having to meet Leia's parents after I blew up Alderaan. Haha, fucker.

The only thing that gets shot down by a skywalker more than you is your Ship.

Han Solo is used to hairy situations...space fights, Chewbacca, Leia's vagina

Sorry leia's not here tonight. I called to ask her why but all she said was that you shot first.

When Han Solo says "She may not look like much but she's got it where it counts" he's not talking about the Millennium Falcon, he's talking about Leia's vagina.

Luke: Mark Hamill

I'm so proud of you. I'm so proud that I made you with my own body, and at the great fighter you've turned out to be. You're strong, and kind--oh wait no, sorry, this speech was for C3PO. Sorry about that.

Look, we should all be nicer to luke. Burnouts run in the family. No, sorry, I meant burn victims.

I'm not saying that you're the least successful of my children, but I am saying that when the doctors looked at you and your sister when you were born, they decided to make her a princess and you a dirt farmer.

I do feel bad that I broke up your relationship with your girlfriend, but then again your arm has healed quite nicely.

I better make sure to watch my drink. Luke already kissed his sister so it's safe to assume one of his mothers is next on the list.

A lot of people don't know this, but there were so many weird CGI additions into the Jabba the Hutt scene because there was no other way to hide Luke's massive erection from seeing his sister in that slave outfit.

George:

George felt like he had to retconn me into a woman because I was practically asking to have my Death Star blown up. Only a woman would leave a hole in a trench wide open and then be mad when it was infiltrated, right George?

Nah, no, that's harsh, sorry George. The real reason you did it is because the prequels weren't the only thing you felt like fucking over.

Thanks for that, though. Now every time I force choke someone I gotta assure people that I'm still on the Dark Side and not just having my time of the month.

George originally thought of "come to the Dark Side" after he learned the Jedi Mind Trick from Bill Cosby. (you will find me attractive...hand movement)

We really are here to thank you though. Without you, none of us would be here right now. You were a true visionary of your time, and I have you to thank for being ranked one of the most terrifying villains of all time. You made us all iconic. We also have literally everyone else

involved in the franchise taking the franchise out of your hands. Without your fantastic editor of a wife and Disney, we'd just be the wet fever dreams of a madman. No, for real, George's wife was the editor of the original trilogy. The whole thing was a mess until she got it.
